

Build a Car

Rev up your team's collaboration by building a road-ready masterpiece

This engaging and dynamic exercise focuses on promoting essential team skills and delivering proven benefits within an organization. The primary objective of this activity is to construct fully-functional remote-control cars. By participating in this activity, participants can gain an enriching learning experience that emphasizes clear communication, effective teamwork, and leadership.

How it Works:

During the activity, each participant will assemble the remote-control cars from scratch. The activity encourages individuals to leverage their unique skills and strengths while fostering a sense of camaraderie. Constructing remote-control cars individually allows participants to take ownership of their work and engage in self-directed learning. They will encounter challenges and obstacles along the way, requiring them to think critically and find independent solutions. This not only develops their technical proficiency but also cultivates resilience, adaptability, and a sense of achievement as they witness their creations come to life

Activity Details:

Duration	Group Size	Physicality	Venue
60 min	10 – 1000	Medium	Indoor
