

Wooden Puzzles

Solve, strategize, and connect in a captivating world of wooden intrigue

Welcome to Wooden Puzzle Challenge! Get ready for an exciting and challenging team-building activity that will test your team's problem-solving skills, communication abilities, and collaboration.

How it Works:

The activity is divided into two games, each with its own unique puzzle challenges. In the first game, Wooden Blocks, teams will work together to build the tallest tower possible using only wooden blocks. The catch is that they will need to build the tower in a limited amount of time and without it falling over.

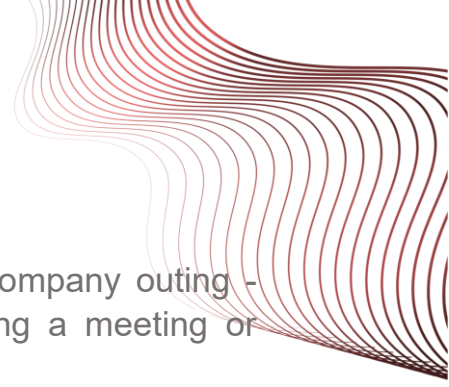

In the second game, Tangram Puzzle, teams will work together to solve a set of tangram puzzles using wooden blocks. They will need to work together to come up with the correct arrangement of pieces to form the given shapes.

Each game will take approximately 30 minutes, with a total of one hour for the entire activity. The objective of the activity is to encourage teamwork, communication, and problem-solving skills among team members. The team that completes both games with the most accuracy and efficiency will be declared the winner.

Activity Details:

Duration	Group Size	Physicality	Venue
60 min	10 – 1000	Medium	Indoor
