

Activity information sheet

Plant a Tree

Make a positive impact and strengthen your team's bond.

"Plant a Tree" is a meaningful team-building activity that combines environmental conservation with collaborative efforts. Participants have the opportunity to plant mangrove saplings in a designated forest area, contributing to the restoration and preservation of this vital ecosystem. Through hands-on engagement, teams work together to make a positive impact on the environment while fostering teamwork and communication.

How it Works:

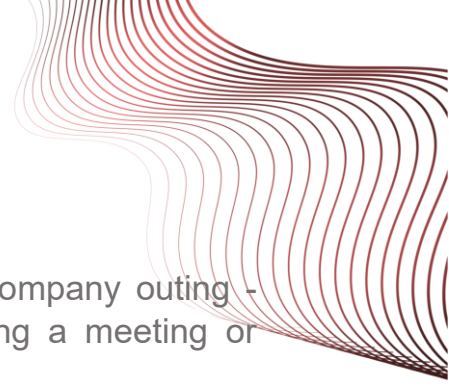

Teams gather for a briefing on the importance of mangroves and their ecological significance. Following the briefing, participants are provided with saplings and guided to the planting area. Working collectively, they prepare the ground, distribute and transport the saplings, plant the trees, and secure them to sticks in the ground. This collaborative experience promotes teamwork, communication, and collaboration as teams work towards a shared goal.

After the planting, a group photo is taken, and participants have an opportunity to clean up before concluding the activity. In the debrief session, a facilitator discusses the challenges faced and engages teams in self-assessment by asking reflective questions.

Activity Details:

Duration	Group Size	Physicality	Venue
1.5 – 2 hours	10 – 1000	High	Outdoor

This Activity is Ideal for:

Staff gathering - Building new teams - Staff celebration - Company outing - Teams development - Improving communication - Energizing a meeting or conference - Public holidays - School trips - Birthday parties.

Tailoring:

Mazecs Activities are all about customization. Would you like specific duration, special event requirements, elements of company branding, culture theme and/or mission statement woven into your team building program? Just tell us what you have in mind.
